Foreword

The journey Kaizon has taken has been truly extraordinary. Innovating paths lead to new visions & new milestones mark every destination.

Kaizon's Hardware Products are a source of pride for us. High performance, high durability, and compelling designs are key characteristics of our products, which are designed with research and crafted with excellence.

With more than 50 dealers and distributors in India and overseas, Kaizon Hardware has maintained its commitment to fairness and integrity.

Kaizon is driven by vision and experience while thinking futuristically and foresightedly is what allows us to create products you love.

The rapidly changing, growing, and competitive hardware industry requires us to be flexible, sensible, and entrepreneurial; it improves productivity and makes a difference.

Throughout this brochure, you will find detailed information about our hardware products. We will continue to innovate our products and remain committed to delivering secure, easy-to-install, flexible solutions.

Better productivity, higher business goals, and a safer future are our visions.

QUALITY POLICY

The Quality Policy is envisioned to be the main focus for the Quality Management System, also is intended to be usable by all the employees as a focus for their job. We are entirely committed to the customer satisfaction and share responsibility for delivery of quality products and services, compliance with any relevant legislation and continuous improvement in all areas of the Business.

The quality of support, interaction and achievement at every step of a way, within our supply chain is greatly significant to our success. Also wherever is practically possible, we join our hands in partnership with our suppliers and customers as a natural adjunct to the quality process.

Sharing of an information, effective communication, education and training are making an enormous effect to perform in the implementation of our quality policy. To ensure that everyone is empowered to contribute equally with the policy, we have quality practices and programmes are promoted widely in both manners, internally and externally using a range of media.
